Session B1: SIDIS: jets, mesons, quarkonia and data

Session | Location: El Escorial, Casa E. San José, Av. Reyes Católicos, 12 - 28280 El Escorial - Madrid

15:30–15:50 **On the reconstruction of SIDIS observables in the Breit frame**

Speaker

Richard Whitehill

15:50–16:10 **Hadroproduction of Pseudoscalar Heavy-Quarkonium Mesons via NRFF1.0**

Speaker

Francesca Lonigro

16:10–16:30 **Matching relations for gluon TMDs up to one-loop accuracy**

Speaker

Alessio Carmelo Alvaro

16:30–16:50 **TMD from dijet production in SIDIS**

Speaker

Patricia Andrea Gutiérrez García

16:50–17:10 **Tomography of nucleon through dimeson photoproduction**

Speaker

David PEREZ

17:10–17:30

Resummed azimuthal decorrelation and transverse momentum imbalance of dijets at the LHC

Speaker

Rong-Jun Fu
