

Neutron Star Theory- Madrid

Thursday 10 October 2019 - Friday 11 October 2019

Facultad de Ciencias Fisicas UCM

Scientific Programme

The call for abstracts addresses especially the following topics in neutron stars:

- Equation of State
- Transport Phenomena
- Gravitational Wave signals
- NS quasinormal modes
- Phases of QCD
- Modified gravity

This workshop is especially relevant for WG1, WG2 and WG3 of the PHAROS network
