

Session Program

Oct 21 – 23, 2026

VAST 2026: From Vacuum Stability to Gravitational Waves

Electroweak Vacuum Stability

Real Jardín Botánico, CSIC.
Plaza de Murillo, 2. Madrid E-28014

Wed, October 21

5:00 PM

Electroweak Vacuum Stability

Session | Location: Real Jardín Botánico, CSIC., Plaza de Murillo, 2. Madrid E-28014

5:00 – 5:20 PM

Linking Neutrino Masses, Dark Matter, and Higgs Criticality via Gauged $U(1)_{B-L}$ **Speaker**

Eduardo Peinado

5:20 – 5:40 PM

Constraining the real singlet extension of the SM**Speaker**

Moritz Bosse

5:40 – 6:00 PM

Higgs Vacuum Stability, Reheating, and Gravitational Waves**Speaker**

Giorgio Laverda

6:00 PM
